## Diesel Fuel Injectors (HEUI) - Remanufactured

### The Product of a Superior Remanufacturing Process

The Hydraulic Electronic Unit Injector (HEUI) system uses high-pressure engine oil instead of a camshaft to control the injection of fuel. Unlike a conventional fuel system, where fuel injection pressures increase proportionally with engine speed, the HEUI system works with the ECM to electronically control injection independent of engine speed.

To ensure continued performance and reliability, all Standard® Diesel Fuel Injectors are the product of an exhaustive remanufacturing process at a TS16949, ISO9001, and ISO14001-certified facility. For an example of what goes into our remanufactured injectors, take a look at our FJ928:

## Diesel Fuel Injectors (HEUI) - Top Sellers

Here are some of our top selling Remanufactured Diesel Fuel Injectors for Hydraulic Electronic Unit Injector (HEUI) systems:

### FJ595

Ford F Pickup, E-Vans (1998-94)

### FJ596

Ford F Pickup, E-Vans (1999-95)

### FJ738

Ford F Pickup, E-Vans (2003-99)  
International Trucks (2002-99)

### FJ926

Ford F Pickup, E-Vans (2003-99)  
International Trucks (2002-99)

### FJ927

Ford F Pickup (2004-03)  
International Trucks (2003-02)

### FJ1239

International Trucks (2005-04)
