Four Seasons Expands Import Coverage in All Major HVAC Categories

LEWISVILLE, Texas, Aug. 24, 2023 – With over 144 million import vehicles on the road today, Four Seasons® continues to expand coverage in all major HVAC categories including compressors, hose assemblies, accumulators, blower motors, evaporators, heater cores, engine coolant components and more.

“With the latest coverage available for HVAC parts from Acura to Volvo, Four Seasons now offers the largest import coverage in the aftermarket, making us the import coverage leader,” said Ron Miller, director of marketing, SMP Temp Control Division. “Today, imports account for almost half of the mix of vehicles in operation. Plus, with our growing commitment to providing replacement parts for the latest hybrid and electric vehicle systems, we now offer 94 percent coverage for late model import hybrid and electric applications.”

For more information on Four Seasons, contact a local account sales manager or visit www.4s.com.

About Four Seasons:

Four Seasons is the flagship brand of Standard Motor Products - Temperature Control Division (SMPT). As the largest remanufacturer in North America of mobile air conditioning compressors, SMPT manufactures and distributes a comprehensive line of replacement climate control and engine cooling products for passenger cars, SUV's, trucks, fleets and heavy duty. Standard Motor Products offers ignition, emission controls, wire and cable, electrical and fuel delivery components to the aftermarket. Visit www.4s.com and www.smpcorp.com for more information.
