Standard Motor Products Releases 186 New Parts for Standard[®] and Intermotor[®]

NEW YORK, N.Y., May 31, 2016 - Standard Motor Products, Inc. (SMP) announces the addition of 186 new part numbers to its Standard[®] and Intermotor[®] lines. The release expands coverage through the 2016 model year covering more than 67.5 million additional VIO.

SMP introduced 90 new sensors covering 23 million VIO. Highlights include 47 accelerator pedal sensors, 16 ABS speed sensors, 7 mass air flow (MAF) sensors, and 7 OE-Match TPMS sensors. The company also increased switch coverage by 13 million VIO with the introduction of 34 SKUs, including back-up light, door jamb, power window, neutral safety, transfer case, and windshield wiper switches.

Other notable additions were made throughout the company's engine management line, including 29 door lock actuators, 24 fuel vapor canisters, and a high-pressure oil pump hose for diesel applications.

Commenting on the release, Phil Hutchens, Vice President Engine Management Marketing, SMP, stated, "We're committed to giving our customers the coverage and quality they need, and our latest release, which expands key categories such as sensors and switches, demonstrates that commitment."

All new applications are listed in the eCatalogs found at www.StandardBrand.com and www.IntermotorImport.com and in electronic catalog providers. To learn more about this release, view Standard's [New Parts Spotlight](#).

Standard[®] offers premium engine management related products, including computerized engine controls, TPMS sensors, and fuel injection components for domestic vehicles. Intermotor[®] offers a full line of genuine import products that are unrivaled for their superior quality, original match and comprehensive coverage.
